

MAKE THE INVISIBLE VISIBLE

OUR MISSION

AETHER empowers people to understand how the air they breathe impacts their health, energy, focus, and wellbeing, helping prevent health issues before they start.

OUR PRODUCT

- Smart multi-sensor AETHER Core
- Indoor & outdoor modular AETHER Nodes
- App with alerts, symptom correlation & guidance
- Cloud AI with personalized health insights

OUR COMPETITIVE ADVANTAGES

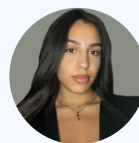

- First ecosystem in Cyprus combining air data with health-relevant insights
- AI assistants (MedBot & HomeBot) for personalized recommendations
- Affordable modular coverage for homes, schools & workplaces
- Cyprus first crowd supported air-quality insight map

Positioned at the intersection of air-quality tech, smart-home devices, and digital health, three rapidly growing markets.

FINANCIAL CONSIDERATION

- High margins (Core/Nodes over 60%)
- Break-even in Year 2
- Subscription revenue from Year 3
- EU expansion drives scalable profitability
